

School for Dutch

course
schedule

Ever wonder
why children
find it easy to
learn a second
language?

Dutch the natural way

Learning a language is a natural process. It involves more than learning new words and grammar. It is about being immersed in a language, about communicating meaning rather than sentence structure. Students who speak in a second language without worrying about a perfect sentence structure are likely to learn faster (just like children). We have applied this knowledge to create a unique training method which helps anyone, no matter what age, to learn Dutch fast. And best of all, it makes learning fun!
